## 經營者的話

企業的穩定成長與永續經營是經營者的責任。本人從退役後即進入台灣關係企業——育志（拉鍊）公司（MIT明志拉鍊公司）服務，從事拉鍊業的工作，已有三十幾年的經驗。對拉鍊的發展與研發有相當深入的研究與參與。為感念栽培我成長歲月的公司，成立的公司也以「育」為名，並發揚其不斷創新與研究的精神。因此創立了「育陽」公司。創立至今，逐漸的擴充生產線更新機台，並於1998年另成立弘業拉鍊有限公司。

面對著全球化市場競爭的趨勢及部份低價市場產品的競爭。我們以推動企業M化、開創新技術與產品。自創品牌MAP及WAY，ISO9000品質系統來開發新市場，擴大市場佔有率，同時透過每年不斷的教育訓練與輔導來提昇全體人員對於客戶品質與服務、市場變化的認知。積極培養育陽人能有關懷的國際觀，爭取客戶的長期配合與合作關係，建立起可長可久之營運模式。

2001年初導入ISO9001:2000年版之全新ISO品質系統，並於同年獲得國際認證。導入ISO系統只是最初步的品質認證。對於客戶與消費者有最基本的保障。期望育陽人能秉持服務創新研究的精神達到客戶的需求，提供客戶優質的產品服務，讓育陽與客戶在世界上有更大的競爭優勢。

## Some Words from the Chairperson (Manager)

It is the manager's responsibility to stabilize the enterprise and ensure its foreverrunning. I have started working for Yu Zhih Zipper (now also known as MIT Zipper Co.Ltd., an associated enterprise of Taiwan Plastic Corp.) ever since I was discharged from the military service. With 30 years of experience working in zipper industry, I have an in-depth understanding in the development of zippers thanks to my persistent research and participation in zipper-related business. To acknowledge the company which I have spent most of my lifetime working for and growing up with, I adopted "Yu," which means "growing" in Chinese as one of the two words that form my company title. The direct translation of the other word "Yang" is "develop," which I use to symbolize the staff's spirits of constantly creating and researching. The title of the company is thus formed into "Yu Yang." Ever since its inception, Yu Yang has gradually expended its production lines and has been frequently upgrading its producing equipment. Moreover,

Ni Chai Zipper Co. Ltd., a subsidiary company to Yu Yang, was also brought into being in 1998. Faced with vicious competitions between trade groups from elsewhere of the world as well as the pressure from markets where products are lowly priced, we strive to explore new markets and gain more market share by mechanizing our producing.

equipment, creating new techniques and products, introducing self-created brands MAP and WAY to the market, and implementing ISO9000, an indicator of high quality products. Meanwhile, by way of providing training programs and guidance to the company employees every year, we enhance the staff's ability to offer better service to customers and to quickly discern the market change. More effort will be put into educating all of Yu Yang's employees so that they may become open-minded people who possess a worldview and are competent at maintaining a long-term relationship with customers, and accordingly creating an everlasting mode of business management.

In 2001, Yu Yang started working on ISO9001:2000, a brand new quality-indicating ISO system. At the end of the same year, the company acquired the international approval of ISO9001:2000. The implement of ISO9001:2000 in this company is merely regarded as a basic guarantee of product quality for clients and consumers. My further expectation is to satisfy various demands of customers, and offer the highest quality products and service to them with Yu Yang employees' devotion to researching and creating new products. We are convinced that Yu Yang as well as its customers will gain more competitive edge in the years to come.

## 經營者的言葉

企業の安定成長と永久経営は経営者の責任である。本人は退役後から台灣關係企業に入りました——育志（チャック）会社（MIT明志チャック会社）に勤め、チャック業に従事して、すでに三十数年の経験を持ち、チャックの発展と研究開発に対して相当深く研究と参加をしてきました。自分を育成し、成長してきた会社に

感謝と情かしみを込めて、設立した会社を「育」と名づけた、並びにその絶えまない新しいアイデアと研究の精神を発揮させ、「育陽」会社を設立した。設立から今日まで徐々に生産ラインを広げ機械を更新し、並びに1998年に弘業チャック有限会社を設立した。

全世界市場競争の趨勢及び部分低価格市場商品の競争に直面した。我々は企業をM化・新技術と商品を開創し、自社ブランドMAP及びWAY・ISO9000という品質システムを促進させることで新しいマーケットを開発し、マーケットの占有率を広げると同時に、毎年絶えまない教育訓練と指導で全体の従業員が顧客に対する品質とサービス・市場変化の認知を上げ、積極的に人が持つ広い国際観念を育成し、顧客の長期協力と合作関係を勝ち取り、長くて永遠に続く経営パターンを樹立する。

2001年の初めにISO9001:2000年版の新しいISO品質システムを導入し、並びに同年の末に国際認証を獲得した。ISOシステムの導入はただ初歩の品質認証であり、顧客と消費者に対して最低な基本保障である。育陽の人材がサービス・新しいアイデア・研究の精神が顧客の需要に達するように、顧客に優れた品質の商品サービスを提供し、育陽と顧客が世界中でより大きな競争優勢があるように希望する。

## 公司簡介

隨著新世紀的第一道黎明，我們面臨了全新的挑戰。全球化地球村的形成也拉近我們的距離。如何掌握21世紀的個人化簡便與流行趨勢，成為我們急切思索的課題，而前瞻的洞見才是確保企業持續成長的關鍵。

育揚拉鍊創立於1990年，早期以尼龍與金屬拉鍊為主要產品。隨著流行的趨勢在1997年擴增塑膠鋼（弘業拉鍊有限公司），全面採用最新的設計與機器設備，逐步的規劃出完善產品線。早在1979年開始，育揚就以富華的名義從事拉鍊的代工，當時代工的對象是MIT拉鍊，因此雖然公司正式成立的時間不久，但實際生產拉鍊的經驗卻是由1979年開始累積的，許多資深員工都擁有超過2、30年的拉鍊經歷！可以想見生產技術對於經驗豐富的我們不是問題。最近幾年也積極的培訓年輕幹部，將年輕與活潑的氣息帶入穩健經營的公司團隊，往往一點點的巧思能帶給我們一點一滴的突破，當然客戶與消費者的建議與需求是我們成長的動力，如果您有對於拉鍊的想法或育揚的產品有建議或看法可要不吝的指教囉，您的意見絕對是全體育揚人的努力目標。

2001年初為迎接即將加入WTO的挑戰，導入ISO9001:2000制度，建立符合國際認可的認證制度。果然一切皆如公司規劃的步驟依序完成各單位的表單制度的統一，並於10月11日獲認證通過。同年10月23日獲頒認證證書。

### 育揚的自創品牌 MAP & WAY

MAP，以實現消費者的需求為目標。

長期耕耘於拉鍊業，MAP擁有豐富的生產經驗和專業知識；透過不斷成長的客戶群與需求，MAP將所得到的寶貴經驗，融和轉化為更新更好的產品設計。MAP，用專注與熱情把更好的產品帶入生活，帶給您便利生活。

## Company Brief

The beginning of the new century reveals the fact that we are confronted with new challenges. The formation of the image, global village, has practically shortened the distance of people in different countries. How to keep close track of individuals' preferences of simplicity and fashion in the 21st century is what we are eager to figure out, to which the most likely answer would be acting as a forward-looking company that implements insightful advice from its executives and employees. This is also one of the solutions that ensure a constant growth of an enterprise. MAP Zipper Group (Hereafter "MAP") was established in 1990. Its main business items at the early stage were zippers made of nylon and metal. Responding to the rapid change of the general public's taste in fashion, MAP expanded its company scale in 1997 by founding a plastic steel factory (Hong Tsai Zipper Co. Ltd.), where the state-of-the-art devices and equipment were introduced and being used. The company has gradually realized its goal of forming a perfect production line. MAP has engaged in OEM (original equipment manufacturing) under the name of "Fu Hua" since 1979, and the then contractor was MIT Zipper Co. Ltd. Despite the fact that it's not long since the company was officially brought into being, its business in producing zippers has long begun since 1979. Most of the senior employees in this company have twenty to thirty years of experience in the zipper industry.

We are proud to say that techniques in producing zippers cause us the least problem, since this company is organized by a group of experienced zipper experts. We have been actively cultivating young leaders in recent years, and expecting to add some vitality to the stably managed company. More than frequently, some novel ideas from these young leaders would contribute to certain good changes of our company in a long run. Of course, suggestions and demands from clients and consumers are also crucial to motivate us to grow stronger. If you have any suggestions or ideas about zippers and MAP products, please don't hesitate to let us know. We will highly regard your input as a goal for all MAP employees to achieve. To prepare itself for entering WTO, beginning from 2001 MAP has started to conduct ISO9001:2000 system—an international indicator of high quality manufacturing system. As expected, the formats of paper forms used by every department of the company have been united step by step according to the company's plan. MAP was approved to have acquired ISO9001:2000 on October 11, 2001, and was awarded with the certificate on October 23 in the same year.

### Self-Created Brand MAP & WAY

MAP aims to satisfy the demands of consumers. Having long engaged in the zipper industry, MAP has gained professional knowledge as well as rich experience in zipper production. In the future, MAP will strive to work out more innovative designs to satisfy the various demands from the increasingly growing number of customers. MAP, with its devotion and passion, brings you more convenience by providing the best products for your life.

## 会社案内

新世紀の始めの黎明に従って、我々は新しい挑戦に直面した。全世界の形成が我々の距離を縮めた。如何に21世紀の個人化手軽さと流行趨勢を把握するか、これが我々に切迫した思索の課題となった。そして前に仰ぎ見た洞察こそが企業が成長し続けることを確保するキーポイントである。育揚チャックは1990年に創立され、早期はナイロンと金属チャックを主な商品とした。流行の趨勢に従って1997年に合金工場（弘業チャック有限公司）を増設した。全面的に最新の設計と機械設備を採用し、一步一步完全な生産ラインを規格し出した。育揚は1979年より富華名義でチャックの代行を引き受け、当時下請けの対象となったのはMITチャックであった。そういうわけで会社が正式に設立された瞬間は長くはないが、実際にチャックの生産経験は1979年から積み重ねてきた、多くの熟練従業員は2、30年を超えるチャック経験の持ち主である！生産技術の面からみても経験豊富な我々にとっては問題ではないのである。ここ数年我々は積極的に若い幹部を育成し、若さと活潑な息吹を沈着な経営の会社チームの中に取り入れ、往々にしてちょっとしたアイデアが我々に少しずつ目標を超えさせる。もちろん顧客と消費者の意見と需要が我々の成長の動力である。もしあなたにチャックについて或いは育揚の商品に対して意見を御持ちでしたら、惜しまずに指摘して下さいね。あなたの意見が育揚従業員全体の努力するべき目標である。

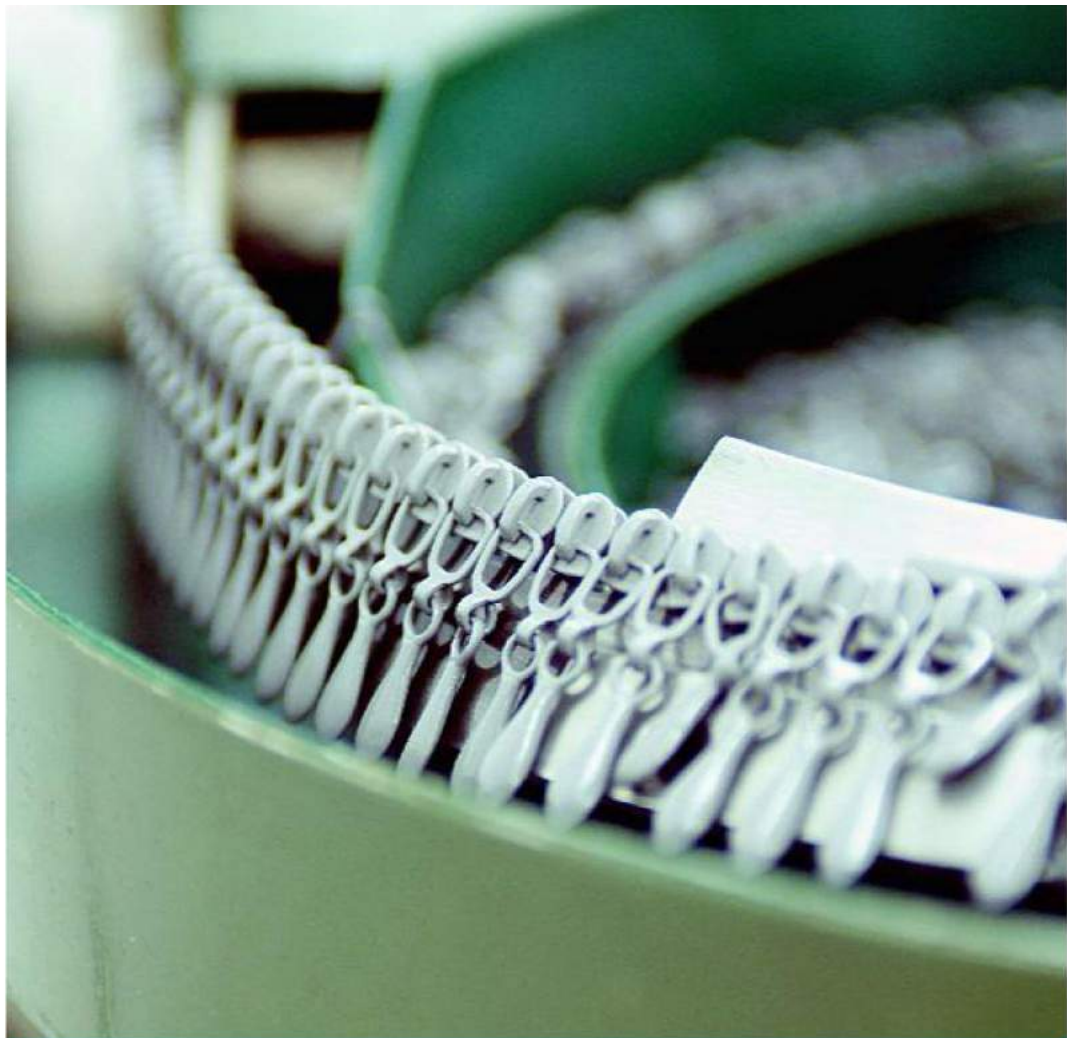

2001年の始めにWTO加入という挑戦を迎え入れるために、ISO9001:2000制度を導入し、国際認可の認証制度を樹立した。案の所一切が会社の企画した段取り通りに各部門の伝票制度の統一を完成させた。並びに10月11日に認証を通過した。同年の10月23日に認証証書を獲得した。

### 育揚の自社ブランド MAP & WAY

MAPは消費者の需要を実現することを目標とする。

長期のチャック業に携わり、MAPは豊富な生産経験と專業意識を持ち、成長し続ける顧客群と需要を通して、MAPは得たすべての貴重な経験を融合し、より新しいより良い商品設計と変えていくのである。

MAPは専心と情熱を用いてより良い商品を生活に取り入れ、あなたに便利な生活を与える。

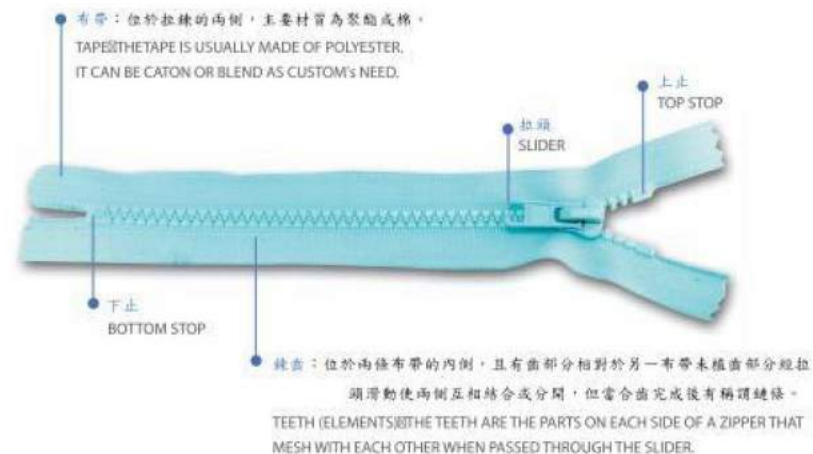

## 拉鍊的結構 The Structure of Zipper

A

拉鍊主要由三部份組成：布帶、鍊齒、拉頭。

THE ZIPPER CONTAINS THREE MAJOR PARTS: TAPE, TEETH, ELEMENTS & SLIDER.

B

拉頭主要由三部份組成：拉座、拉片、連接環（依搭配的拉座與拉片的需求才有）。

THE SLIDER MAY CONTAIN 3 MAJOR PARTS: SLIDER BODY, PULLER & CONNECTOR (SOMETIMES, THE SLIDER SET NEEDS THE CONNECTOR TO ASSEMBLE THE PULLER.).

拉座：拉頭的主體，內涵將鍊齒分該結合即將拉頭卡於拉鍊上的機構。  
SLIDER BODY: THE MAIN PART OF THE SLIDER CAN OPEN OR CLOSE THE ZIPPER.

拉片：拉頭中最多變化的裝置，通常可依客戶的要求改變材質、顏色、商標、或圖案等。  
PULLER: YOU CAN CHOOSE OR MOLD THE PULLER TO MEET YOUR NEED.

C

拉座的分類：一般分為自動頭、無梢頭、半自動頭（又可分尖梢頭及彈片頭）、反轉自動頭、反轉無梢頭、雙拉片自動頭、雙拉片無梢頭、反拉自動頭及反拉無梢頭等，其他有特殊用途的拉頭如鎖孔頭。

SLIDER BODY IT CONTAINS AUTO-LOCK, NON-LOCK, SEMI-LOCK (PIN-LOCK & SPRING-LOCK),  
REVERSABLE AUTO-LOCK, REVERSABLE NON-LOCK, DOUBLEPULLER AUTO-LOCK, DOUBLE PULLER  
NON-LOCK, REVERSE AUTO-LOCK & REVERSE NON-LOCK.
